Receive a Message

Summary

When receiving a message, the 'Comms' button on the Primary Navigation on the lefthand side will show a blue dot.
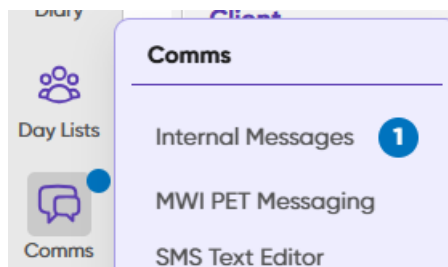

Details

Receiving a Message

When you receive a message you will receive two notifications.

Comms Icon

The ' Internal Messages' icon will display how many unread messages you have waiting.

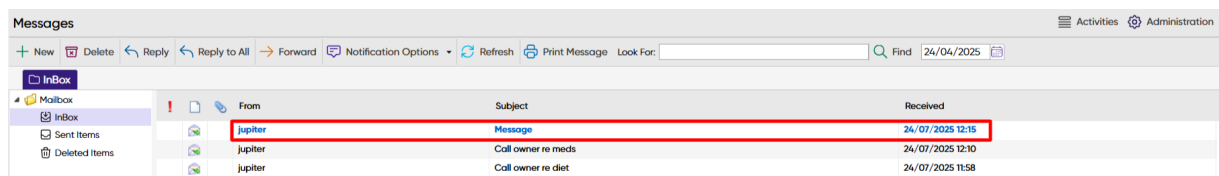

Messages notification

In the bottom right hand corner a notification will display.

Viewing a Message

1. Select the 'Internal Messages' button.
2. Your inbox will display, with your messages displayed on the right-hand side. Messages in blue are your unread messages.

3. Select the message you wish to read. Once you have selected the message it will change from blue to standard text.
4. If you wish to remind yourself to deal with the message later, you can right click on the message and mark as "unread".
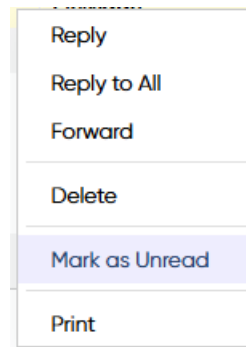

Messages are stored for 3 months by default as they are cleared on a routinely basis. This duration can be changed in Administration > System > Settings > GDPR by changing the setting "Clear Internal Messages after X months".

Message Content

If the message has a patient link or attachment, double click to navigate to the link or view the attachment.

Message Options

There are multiple options on the messages toolbar.

New = Opens a new message window.

Delete = Deletes a message (Sends to 'Deleted Items' folder).

Reply = Reply to a received message.

Reply to All = Reply to a received message.

Forward = Forward a received message.

Notification Options = Disable message notifications for a set period (15mins, 1hr, 4hrs or 24hrs).

Refresh = Manually refreshes the messages screen.

Print Message = Prints a received message.

Look for = Used to search for a message.

Find = Filter received messages by date.
