

Message Settings

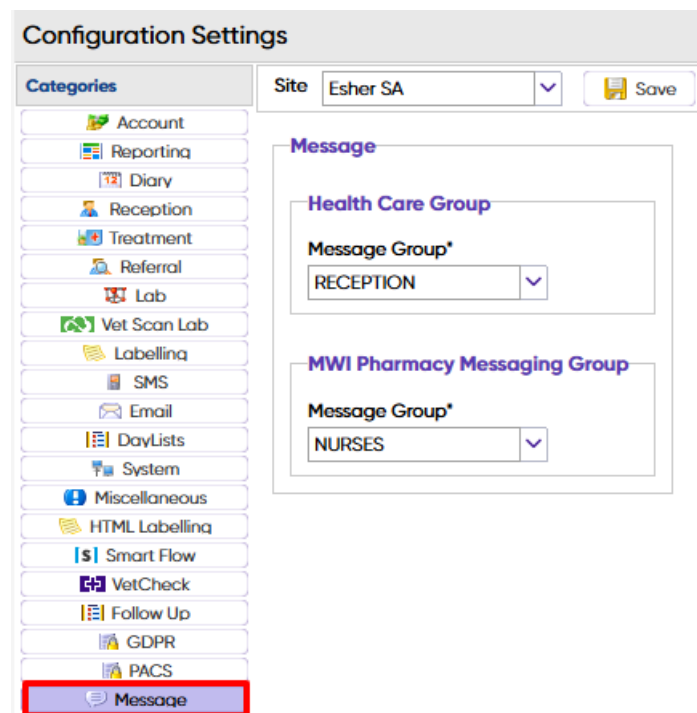

30/07/2025 4:24 pm BST

Summary

Message Settings can be accessed via: Administration > Settings and selecting the 'Message' category.

This page documents each setting.

Details

The screenshot shows the 'Configuration Settings' interface. On the left is a 'Categories' list with various system modules. The 'Message' category at the bottom is highlighted with a red box. To the right of the categories is a 'Site' dropdown menu set to 'Esher SA' and a 'Save' button. The main content area is titled 'Message' and contains two sections: 'Health Care Group' and 'MWI Pharmacy Messaging Group'. Each section has a 'Message Group*' label and a dropdown menu. In the 'Health Care Group' section, the dropdown is set to 'RECEPTION'. In the 'MWI Pharmacy Messaging Group' section, the dropdown is set to 'NURSES'.

MWI Pharmacy Messaging

This is to assign the messaging group who will receive notification of rejection prescriptions via the [Home Delivery](#) module.

Note: To create a new messaging group, see: '[Internal Message Administration](#)'.
