

Scheduler

31/07/2025 3:49 pm BST

Summary

The Scheduler is a utility used to view and control which schedules are running (VetXML polling, SMS Schedules etc). This screen is maintained by the MWI Technology Support Team.

Details

Viewing the Scheduler

- 1. Navigate to Administration > Scheduler.
- 2. The below screen will appear. It lists each task, the schedule it is running on, run details and whether the job is enabled/disabled.

Scheduler Monitor									
Scheduler Status: RUNNING Stop Kill <input checked="" type="checkbox"/> Show Disabled Tasks Refresh Trigger Task Delete Task Stop Task Kill Task <input type="checkbox"/> Notify Missed Tasks Activities Administration
