

Treatment Archive History

01/08/2025 2:21 pm BST

Summary

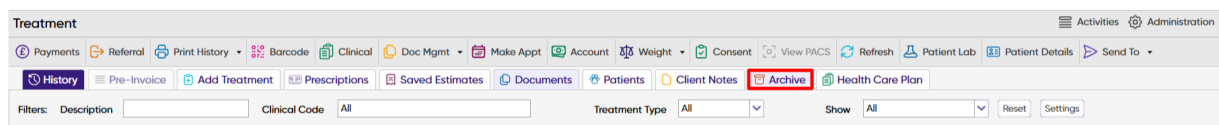

If you have migrated from another PMS, this tab stores all the patients history and any clinical data from your previous system.

When in a patient's treatment screen, if the Archive tab is showing in blue, this means there is archive information stored for the patient.

Details

View Archive History

1. Navigate to the Treatment Screen.
2. Select the 'Archive' tab.

3. The patient's Archive history is displayed.

Search Archive History

A description box is provided which allows you to search by treatment description.

A screenshot of the 'Archive' tab in the software interface, displaying a table of treatment history. The table has columns for Date, Time, Description, Clinical Code, Qty, Total, Surgeon, Site, and Ins No. The 'Archive' tab is highlighted in blue in the navigation bar above the table. The table contains three rows of data, each with a date, time, description, and a quantity of 0.

Date	Time	Description	Clinical Code	Qty	Total	Surgeon	Site	Ins No
20/01/2024	00:00	test description 11		0	0.00	test	Esher	
21/01/2024	00:00	test description 12		0	0.00	test	Esher	
22/01/2024	00:00	test description 13		0	0.00	test	Esher	

The Description filter allows you to filter the history.
