

Barcodes

30/07/2025 11:28 am BST

Note: This tab does not display for MWI Wholesale users as all batch information is displayed within the ASN.

Details

When an item is imported into Merlin, if it has an associated barcode, it will display within the Barcodes tab along with other relevant information for that product such as the batch number and expiry date.

Supplier: NVS

Site: Esher

Barcodes

Check Codes

| Barcode | Supplier Code | Batch Number | Expiry Date | Entry Date | Delivery Qty | Description | Treat Code |
|---------|---------------|--------------------|-------------|------------|--------------|-------------|------------|
| | 00000001 | BATCH12345BATCH... | 31/01/2012 | 25/03/2025 | 1350 | | |

Once imported, the barcode will also be added into Code Entry for the relevant item. Barcodes are then used for scanning items into the treatment draft screen.
